NOTE 1 - NATURE OF ORGANIZATION:

Genesis Ministries of Rockingham County, Inc. (Organization) was organized and incorporated in the State of North Carolina on March 5, 2015. The purpose of the Organization is to provide a new beginning for individuals who are bound by addictions. Through instructions, modeling, and a Christ-centered atmosphere, students will be set free to live healthy lives spiritually, physically, mentally, and emotionally.

The Organization is exempt from federal income tax under Section 501(c) (3) of the Internal Revenue Code (code). The Organization is classified as a publicly supported organization rather than a private foundation under Section 509(a) of the code. Contributions to the Organization are deductible for federal income tax purposes.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Reporting – Method of Accounting

The financial statements of the Organization have been prepared on the accrual basis of accounting in accordance with Generally Accepted Accounting Principles (GAAP) and include all activities carried on in the name of the Organization. Revenues and expenses are recognized in the period earned or incurred.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions. The governing board from time to time designates, from net assets without donor restrictions, net assets for an operating reserve and/or board-designated programs.

Net Assets With Donor Restrictions – Net assets subject to donor- (or certain grantor-) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Cash & Cash Equivalents and Credit Risks

Organization cash consists of cash on deposit with banks. Cash equivalents represent money market funds or short-term investments with original maturities of three months or less from the date of purchase, except for those amounts that are held in the investment portfolio which are invested for long-term purposes.

Financial instruments that potentially subject the Organization to concentrations of credit risk consist principally of cash and cash equivalents and investments. The Organization maintains its cash and cash equivalents in various bank accounts that, at times, may exceed federally insured limits. The Organization's cash and cash equivalent accounts have been placed with high credit quality financial institutions and has not experienced, nor does it anticipate, any losses with respect to such accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates, and those differences could be material.

Support, Revenue and Reclassifications

Contributions received are measured at their fair values and are reported as an increase in net assets. The Organization reports gifts of cash as restricted support if they are received with donor stipulations that limit the use of the donated assets, or if they are designated as support for future periods. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net asset with donor restrictions is reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Donor-restricted contributions that are met in the same reporting period are reported as unrestricted support.

Revenues are reported as income when earned. Contributions are recognized when cash, securities or other assets, an unconditional promise to give, or notification of a beneficial interest is received. Conditional promises to give are not recognized until the conditions on which they depend have been substantially met. Grants received in advance but not earned are reported as deferred grant revenue on the statement of financial position.

Although the Organization does receive indications of intent to support dedicated funds including capital campaigns, those commitments are faith promises and subject to unilateral change by the donor. The commitments are not considered unconditional promises to give and are not reported prior to receipt of the contribution. Upon receipt, these funds are reported as donor-restricted capital campaign gifts.

Expenses are recorded when incurred in accordance with the accrual basis of accounting. The Organization incurred no joint costs for the years ended December 31, 2022 and 2021, respectively.

Reclassifications represent net assets released when expenses have been incurred in satisfaction of the donor restrictions.

Donated Services

Volunteers contribute significant amounts of time to our program services, administration, and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by generally accepted accounting principles. Contributed goods are recorded at fair value at the date of donation. No significant contributions of such goods or services were received during the years ended December 31, 2022 and 2021, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Advertising Costs

The Organization expenses advertising costs as they are incurred which totaled \$6,375 and \$9,103 for the years ended December 31, 2022 and 2021, respectively.

Property and Equipment

The Organization follows the practice of capitalizing all expenditures for property, furniture, fixtures, equipment, and leasehold improvements in excess of \$1,000. In accordance with GAAP, land is not depreciated, and Construction-in-Progress is depreciated when it is completed and placed into service. Maintenance, repairs, and minor renewal are expensed when incurred. When assets are retired or otherwise disposed of, their costs and related accumulated depreciation are removed from the accounts and resulting gains or losses are included in income.

Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets, which generally are as follows:

Building & improvements	10 – 39 years
Furniture and equipment	3 – 10 years
Vehicles	5 years
Leasehold improvements	life of lease or useful life (whichever is shorter)

Depreciation expense totaled \$3,756 and \$3,727 for the years ended December 31, 2022 and 2021, respectively.

Income Taxes

The Organization is exempt from income tax under IRC section 501(c)(3), though it is subject to tax on income unrelated to its exempt purpose, unless that income is otherwise excluded by the Code. The Organization has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and to identify and evaluate other matters that may be considered tax positions.

Uncertain Tax Positions

The financial statement effects of a tax position taken or expected to be taken are recognized in the financial statements when it is more likely than not, based upon technical merits, that the position will be sustained upon examinations. Interest and penalties, if any, are included in expenses in the statements of activities. As of December 31, 2022 and 2021, respectively, the Organization had no uncertain tax positions that qualify for recognition or disclosure in the financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

Concentration of Support Risk

The Organization is primarily dependent upon contributions from its donors to meet expenses of operation and for the payment of principal and interest on debt, if any. Although management of the Organization expects contributions to be adequate, there can be no assurance that such contributions will be sufficient to meet the obligations. Also; there is no assurance that Organization donors will increase or remain stable, or that per capita contribution by donors will increase or remain stable. Support of the Organization comes primarily from donations concentrated in the Eden, North Carolina and surrounding geographical area.

Fair Value of Financial Instruments

The Organization reports certain assets and liabilities at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Unadjusted quoted market prices for identical assets or liabilities in active markets as of the measurement date.

Level 2 – Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets/liabilities in active markets;
- Quoted prices for identical or similar assets in non-active markets;
- Inputs other than quoted prices that are observable for the asset/liability; and,
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 – Unobservable inputs that cannot be corroborated by observable market data.

Subsequent Events

Organization management has evaluated subsequent events through the report date, the date on which the financial statements were available to be issued, and found no events or transactions, which require modification to the financial statements. Subsequent events after that date have not been evaluated.

Notes to the Financial Statements

NOTE 3 – LIQUIDITY AND AVAILABILITY:

The Organization regularly monitors the availability of resources required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Organization considers all expenditures related to its ongoing programs as well as the conduct of services undertaken to support those activities to be general expenditures.

In addition to financial assets available to meet general expenditures over the next 12 months, the Organization operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources. Refer to the statement of cash flows, which identifies the sources and uses of the Organization’s cash and shows cash generated by operations for fiscal years ending December 31, 2022 and 2021.

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the balance sheet date, comprise the following:

	12/31/2022	12/31/2021
Cash and cash equivalents	\$ 279,882	\$ 206,424

Restricted cash totaled \$35,327 and \$42,015 for the years ending December 31, 2022 and 2021, respectively.

NOTE 4 – FUNCTIONAL EXPENSES:

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include occupancy expenses such as rent, utilities, mortgage interest, depreciation, and amortization, which are allocated on a square footage basis. Other expenses such as salaries & wages, benefits, payroll taxes, and other are allocated on the basis of estimates of time and effort.

Donated services are recognized as contributions if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are performed by people with those skills, and would otherwise be purchased by the Organization. The Organization recognizes in-kind contribution revenue and a corresponding expense in an amount approximating the estimated fair value at the time of the donation.

All donated services and assets were utilized by the Organization's programs and supporting services. There were no donor-imposed restrictions associated with the donated services and assets.
